

**Provincial Games Sport Quota**

A quota for each sport will be set based on the capacity of the venue and the overall games. The final quota in a sport will be determined by the games host in consultation with Special Olympics Prince Edward Island (SOPEI).

Where SOPEI is attending Games in partnership with neighboring chapters the host chapter will set the quota for each sport and mission staff positions.

**Program Individual Sport Quota**

In sports where demand for positions outweighs capacity, SOPEI will institute a quota system. The final quota for each community program will be determined based on the following calculation.

Community programs sport quota is determined based on the percentage of the total requested positions in that sport. This is determined through enrollment data in the member database along with registration for the event.

If, in PEI, a county has 10% of the provinces 5 Pin Bowlers, they will in turn get 10% of the Games 5 Pin Bowling sport quota.

**5 Pin Bowling Quota: 115 Athletes**

	Quotas requested by Program	Percentage of requested Quotas	Projected
Program 1	75	50%	58
Program 2	55	37%	43
Program 3	20	13%	14

**PROGRAM SPORT QUOTAS**

A zero (0) in an county or community program sport allocation column is the result of:

- no athletes registered in the sport; and/or,
- the County has not attended any qualifying competitions in that sport; and/or,
- the County has indicated that it does not intend to fill the quota within that sport.

There is a ceiling quota of 50% of the total number of competitive positions at the Games being allocated to one county or community program.

There is a minimum of two athlete quota per sport (1 Male and 1 Female), per program, providing they have athletes registered in that sport and athletes are eligible for the event.
